PASMA Towers For Users

PASMA Towers For Users Training Course

The Working at Height Regulations (2005) require that the assembly, dismantling or alteration of Mobile Access Towers should only be undertaken by a competent person, or if being trained, under the supervision of a competent person. A PASMA qualification is proof of competency...

Who is this course for?

Any person(s) who, as part of their working duties are involved in the assembly, dismantling and use of mobile access towers.

Course Content:

- Health and Safety Legislations and Regulations
- PASMA Code of Practice
- Safe Working at Heights
- Identifying Mobile Access Tower equipment
- Manufacturers Instruction Manuals
- Ground and Site conditions
- Sequence of assembling and dismantling Mobile Access Towers
- Use of stabilisers, outriggers, sole pads and ties
- Moving and Repositioning assembled towers
- Inspect and Report procedure
- Multiple choice test paper
- Advanced Guardrails and 3T (Through The Trap) erection
- Practical assembly, moving, inspection and dismantling

Course Duration:

1 Day

Other PASMA accredited Courses:

Low Level Access

This half day course is intended for users of low level access equipment (< 2.5m) made from prefabricated tower components, such as folding step units and folding tower units.

Combined Standard & Low Level

Two essential courses in 1 day.

Working at Height Essentials

This half day course is designed to cover the essential points for those working at height and it provides vital information about the use of mobile access towers
